

Interim Report

Mr Ramit Sharma has been employed in our company since 15 June 2022. He began his employment at Aaron GmbH, which was acquired by Doctolib GmbH in May 2024, upon which his employment continued without interruption. During this time, he worked as a Machine Learning Engineer from 15.06.2022 to 30.11.2023. From 01.12.2023, he took on the position of Python Developer and subsequently, from 01.08.2024, works as a Software Engineer in the area of Conversational AI / Phone Assistant.

Since 2013, Doctolib has been transforming healthcare for 400,000 health professionals and 80 million patients across Europe. Through an innovative software suite for practitioners, Doctolib streamlines workflows and provides advanced clinical solutions – including electronic health records, diagnostic support, and prescription management – alongside Patient Management Solutions for scheduling, teleconsultation, and practice efficiency. For patients, Doctolib is a health companion, helping them access care simply, securely, and proactively. With a team of 2,900 employees across 30+ cities, Doctolib is shaping the future of clinical practice through cutting-edge technology.

Mr. Sharma's main responsibilities include the following activities:

Software Engineer (Conversational AI / Phone Assistant) — Doctolib

- Development and improvement of LLM-based voice assistants for patient interactions;
- Development and integration of the Patient Messaging Agent with internal patient context services and automated tests;
- Design and implementation of structured telemetry events to measure success rates and conversion funnels;
- Set-up of reliability monitoring with SLOs, Datadog, and infrastructure as code for availability and latency;
- Improvement of LLM output quality through prompt restructuring, evaluation suites, and safety tests.

Python Developer — Aaron GmbH

- Development and optimization of the Phone Assistant flow engine for real-time conversation logic and routing;
- Design and implementation of a Patient Identification System with a block-based architecture;
- Set-up of an interchangeable extraction layer for patient identification using LLM and NLP models;
- Implementation of robust error handling with retry logic and backoff strategies, as well as performance tracking;
- Development of a Yes/No/Unknown classifier and execution of evaluation suites.

Machine Learning Engineer — Aaron GmbH

- Development and deployment of a data protection pipeline for the anonymization of sensitive healthcare texts;
- Set-up of a multi-layered cleaning architecture using NLP and custom heuristics for GDPR compliance;
- Conducting applied ML research on hang-up prediction and audio classification;
- Mentoring software interns and research coordinators on AWS infrastructure and workflows;
- Optimization of dialogue adaptation strategies through model evaluation and data analysis.

Mr Sharma possesses excellent in-depth specialist knowledge even in peripheral fields, which he always applies to our business processes in a most effective and beneficial manner. He is continuously and very successfully expanding and updating his extensive specialist knowledge to the benefit of our company by regularly attending events to further his education.

Due to his very good perception, he is always able to understand complex situations immediately and to find very good solutions straight away. Mr Sharma always works using his own initiative and completely identifies with his responsibilities and our company at all times. He always displays an impressive level of dedication and motivation. In extremely stressful situations, he always displays exemplary resilience.

He always completes his tasks completely independently, extremely carefully and according to a well thought-out plan. He works calmly, thoughtfully, in a target-oriented manner and extremely precisely at all times. He continuously impresses us particularly in terms of quality and quantity. Mr Sharma always is extremely reliable.

He is always able to find excellent solutions for any problems which arise. The performance of Mr Sharma always earns our full recognition in every respect.

He is respected by everyone for his consistently friendly and well-balanced demeanour. He is always helpful, courteous, and if necessary, he puts the interests of others before his own. His personal conduct towards his line managers, colleagues and clients is always exemplary and loyal.

This interim reference is being provided at the request of Mr Sharma. We would like to thank him for his consistently very good performance in the past, and are looking forward to a positive continuation of his employment.
