

Praktikumszeugnis (Internship Report)

Mr Ramit Sharma, born on 15.06.1991 in Dhanusha, completed an internship from 04.11.2019 to 24.04.2020 in the department Industrial Engineering painted car body / press shop plant Ingolstadt and took over the following tasks:

- Creation of a concept and a structure for a software within Industrial Engineering which improves the following decision support
- Modeling components as a part of the digitalization process
- Implementation of a software, which improves the comparison of different production scenarios
- Programming with Python as well as with big and dynamic data
- Validation of results and optimization of the tools
- Creation of a user documentation

Mr Sharma always showed initiative and extraordinary motivation. Due to his good comprehension, he always got to grips with new tasks quickly. He always applied his excellent expert knowledge with great success and demonstrated a keen willingness to learn. Mr Sharma was characterised by his very focused and efficient method of working. Even with high requirements, he was always able to work under pressure with a quality of work that always impressed us. His work quality far exceeded our requirements and expectations. Mr Sharma always performed the tasks assigned to him to our full satisfaction.

Due to his constantly friendly nature, Mr Sharma was highly valued by everyone. His conduct towards business partners was also very good. He has high communication skills with which he was able to contribute to successful team work in all respects.

We would like to thank Mr Sharma for his good work and wish him all the best in his future career.

The internship was successfully completed.

This reference was issued according to German law. The conformity with regulations for references of other countries has not been checked.
